CERTIFICATE

Foot and mouth disease status of Kazakhstan

This is to certify that, following a recommendation of the OIE Scientific Commission for Animal Diseases, the World Assembly of Delegates of the OIE approved on 26 May 2015 the proposal that a zone of Kazakhstan composed of the nine regions of Akmola, Aktobe, Atyrau, Karaganda, Kostanay, Mangystau, North Kazakhstan, Pavlodar and West Kazakhstan as described by the Delegate of Kazakhstan on 14 August 2014 be recognised by the OIE as a zone free from foot and mouth disease (FMD) where vaccination is not practised in accordance with the OIE *Terrestrial Animal Health Code* (2014).

This recognition is based on the documentation submitted to the OIE by the Delegate of Kazakhstan. The Delegate of Kazakhstan to the OIE has the obligation to notify the OIE immediately if there is any change in the epidemiological situation relating to FMD in Kazakhstan and to confirm annually that the epidemiological situation has remained unchanged, according to the requirements of the OIE *Terrestrial Animal Health Code*.

Paris, 28 May 2015
